Dual Key Remap [32|64bit]

* Monitor capslock, escape, control and so on * LOCK escape-capslock hotkey combination * Keymacro will be put into startup folder * Keeps easy to use to lock caps lock * But you need to restart windows when you exit the keymacro *.lua script in self-execute it * Use config.txt and config.lua to customize, change the lock pattern or select a hotkey of your choice * Contains preconfig.lua * You can configure it in config.lua. * You can change the hotkey in config.lua. * If you change the hotkey, you must restart windows to use it. * To remove the keymacro, you can manually remove the registry key under * [HKLM\Software\Microsoft\Windows\CurrentVersion\Explorer\Advanced], or you can restart the computer, and it will be automatically removed. * You can put the keymacro in startup folder. * Config.txt: * InstallKey=1 * Key=CapsLock * Hotkey=Escape * LockCmd=!Lock * User=admin * InstallOnlyShowWhen=1 * AutoHideInstall=0 * InstallRunMode=0 * AutoHideDelay=0 * InstallPath=path_of_keymacro * InstallCmd=exit * InstallDir=HKLM\Software\Microsoft\Windows\CurrentVersion\Explorer\Advanced\ * InstallType=1 * AutoUninstall=0 * AutoUninstallDelay=0 * AutoUninstallPath=c:\temp * AutoUninstallCmd=exit * MaxTimeout=30 * MaxTimeoutDelay=0 * UninstallFile=uninstall_keymacro.exe * UninstallCmd=rem * UninstallPath=c:\temp * UninstallRunMode=1 * UninstallDir=HKLM\Software\Microsoft\Windows\CurrentVersion\Explorer\Advanced\ * License=This is a free to try software for personal use. Please purchase a license key for continuous use Keymacro is a simple, easy to use tool to remap the CapsLock, Escape and Control keys. It helps rebind these keys to perform other functions when the shift modifier key is pressed. However, since these keys are often pressed in a single, specific combination such as Shift 1d6a3396d6

Dual Key Remap

One of the hardest things for PC users is to get used to using key combinations other than the common Capslock, Control and Escape keys. However, the truth is that many users are aware of the “missing feature”, since it allows them to use their PC faster. Many users find that the Capslock key is a significant hindrance when they need to use their PC, especially in Windows. Consequently, Dual Key Remap is a quick fix that helps solve the problem. This utility rebinds the Capslock key to the Escape and Control keys. Therefore, it is not an alternative to re-learning how to use the keyboard, but simply a quick and easy way to “get back to normal”. GraphicComics Software allows users to create and download high quality comics and graphic novels. The program includes powerful image editing features that make it possible to create custom photos of your favorite characters. It also allows you to turn a 3D model into a comics and graphic novel format. You can use this application to create comic strips, with pictures, comics and illustrations. Fully supports all recent versions of Windows (2000, XP, Vista, Windows 7, Windows 8). Doktor Gadget is a handy utility that helps manage all your gadgets, including USB devices and Bluetooth accessories. This software acts as a manager of devices connected to your computer. You can easily add, delete and rearrange the gadgets that you want to manage. The app provides a clear view of your device when connected and also when not connected. It is possible to create a custom tray icon of any size. The software allows you to delete those gadgets that are not in use. The Doktor Gadget version 3.2 is completely free and does not include any registration, in order to function it is necessary to use the official website to download the latest version of the software. As always, you can find the latest version of the software here.
